

### MICHELIN Guide Netherlands 2010

(Paris – November 24, 2009) — Michelin today released the **MICHELIN Guide Netherlands 2010**. The new edition offers a selection of 1,216 establishments, of which 561 hotels and 655 restaurants.

New features include:

- **91 “starred” restaurants, of which 12 new additions**

The number of starred restaurants has increased to 91 this year, compared with 83 in the 2009 guide. Of the total, two restaurants have three stars, 14 have two stars (of which one just awarded its second star) and 75 have one star (of which 11 newly promoted). The MICHELIN Guide Netherlands 2010 includes **one new two-star restaurant**, Boreas in Heeze. There are **11 new one-star restaurants**.

- **93 Bib Gourmand restaurants, of which 17 new additions**

In all, 93 restaurants have received the Bib Gourmand label in the new edition, compared with 87 in the 2009 guide. These restaurants offer a full three-course meal for €35 or less. The guide confirms a clear trend in gourmet dining that has developed in recent years, namely the growing number of simple, informal restaurants that avoid fancy ingredients and lavish decoration. With chefs who are committed to doing things right and making good food **affordable to everyone**, these restaurants are especially popular during times of recession.

With the release of this new edition, the MICHELIN guide has reaffirmed the **values** that underpinned its longevity and reputation throughout the 20th century and have made it **the benchmark** guide – since 1905 – for choosing the right restaurant or hotel.

**The benchmark**, thanks to a **reliable selection that is updated every year** by anonymous, professional inspectors, all of whom are MICHELIN employees and pay all their hotel and restaurant bills. The new edition includes **56 new establishments** and **15% of the selection has been renewed**.

**The benchmark**, because it's a **guide for everyone** that reflects the dynamism and the changes reshaping the gourmet dining and hotel scene in the Netherlands while also featuring an up-to-date selection of the best hotels and restaurants in all price and comfort categories, from small neighborhood cafes and simple guesthouses to upscale restaurants and luxury hotels.

**The benchmark**, thanks to a **consistent, meticulous selection process** that is applied in all 23 countries covered by the MICHELIN guide. Restaurants anywhere around the world that are being considered for stars are judged on five criteria: product quality, preparation and flavors, the chef's personality as revealed through his or her cuisine, value for money, and consistency over time and across the entire menu. These criteria are adapted to each type of cuisine.

**The MICHELIN Guide Netherlands 2010 in a few figures:**
